

Product sharp values for curtailments of firm capacity from 01.06.2016

At this point, the curtailments will be identified for all relevant network points at which ONTRAS offers more than one firm capacity product. The table will be updated only in case of curtailments at the relevant network points. The data will be provided on 01 June 2016 und won't be made available retroactively.

Name of network point	Direction	Type of capacity	Date from	Date to	Hourly value [kWh/h]
