Fees for capacity reservation on the hydrogen network

of ONTRAS Gastransport GmbH

Valid from: 29.10.2026

Reservation fee for the hydrogen core network

The fee payable for a non-interruptible capacity product is calculated using the following formula:

For firm hydrogen capacity (FWK):

For yearly capacity: $RE = K \cdot \frac{d}{d_j} \cdot R \cdot f_{res}$

Variable		Definition
RE	…	Reservation fee in EUR
K	…	Capacity in kWh/h
d	…	Contract period in days
d_j	…	Days of calendar year (standard year: 365; leap year: 366)
R	…	Ramp-up tariff in EUR/kWh/h/a (see publication Ramp-up tariff)
f_{res}	…	Factor reservation fee*

*The factor for the reservation fee is 4 %, but there is a minimum annual reservation fee of €9,000. Monthly billing.
